

## Scan via Gmail – password opsætning

1. Log in på din Google konto
2. Sikre dig, at kontoen benytter *2 step godkendelse* – skal være **on**  
Se evt. <https://support.google.com/accounts/answer/185839?hl=en&co=GENIE.Platform%3DAndroid>

The screenshot shows the 'Signing in to Google' settings page. On the left, a navigation menu includes 'Home', 'Personal info', 'Data and privacy', 'Security' (highlighted with a red box), 'People and sharing', 'Payments and subscriptions', and 'About'. The main content area shows 'Password' (Last changed 13 Apr), 'Use your phone to sign in' (Off), and '2-Step Verification' (Off, highlighted with a red box).

3. Generer App password

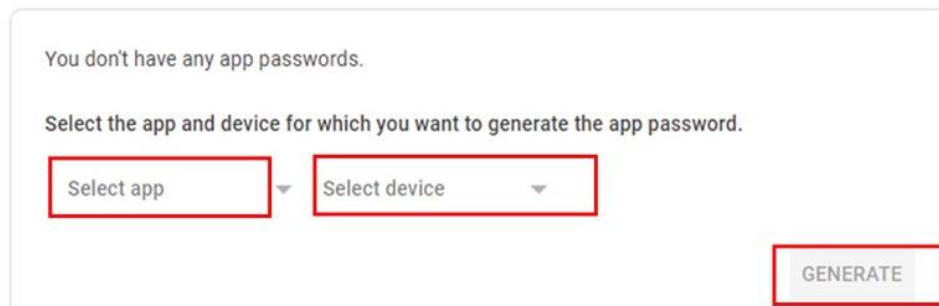

The screenshot shows the 'App passwords' settings page. It lists 'Password' (Last changed 13 Apr), '2-Step Verification' (On), and 'App passwords' (None, highlighted with a red box).

4. I *Select app* vælger du **Mail**. I *Select device* vælges **Andet**

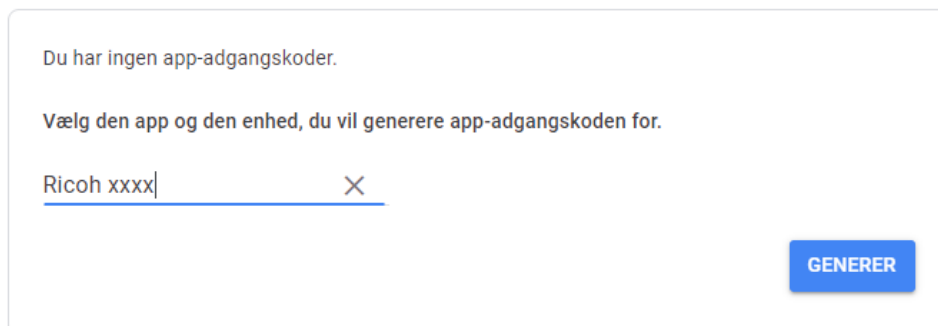

### ← App passwords

App passwords let you sign in to your Google Account from apps on devices that don't support 2-Step Verification. You'll only need to enter it once so you don't need to remember it. [Learn more](#)

The screen displays the message 'You don't have any app passwords.' and 'Select the app and device for which you want to generate the app password.' Below this are two dropdown menus: 'Select app' and 'Select device', both highlighted with red boxes. A 'GENERATE' button is also highlighted with a red box.

Skriv evt. kopimaskinens model og klik **GENERER**

The screen shows the message 'Du har ingen app-adgangskoder.' and 'Vælg den app og den enhed, du vil generere app-adgangskoden for.' Below this is a text input field containing 'Ricoh xxxx' and a blue 'GENERER' button.

#### Eksempel

Your app password for your device
